SWx Operations – operational work flow

SWx Operations – observatory network

SWx Operations – satellite tracking antenna

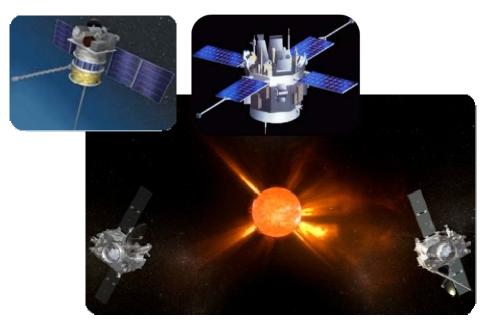

> ACE Tracking Antenna

- ✓ global tracking network for RTSW
- √ 13-meter dish antenna (S-band)
- ✓ in operation since Feb 2012
- ✓ will be upgraded for DSCOVR
 by Dec 2014

➤ New Tracking Antenna

- √ 13-meter dish antenna
- ✓ dual RF (X-band, S-band) & triple receiver switching for STEREO, ACE, DSCOVR tracking
- √ will be ready by Dec 2014

Research Activities – prediction models

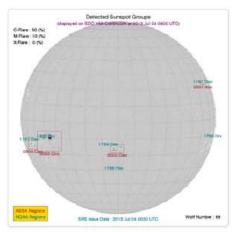

Solar Activity	ASSA: Automatic Solar Synoptic Analyzer solar cycle prediction
Solar Wind	WSA-Enlil + Cone (Dr. Dusan Odstrcil & SWPC) IPS Solar Wind Reconstruction (Dr. Bernard Jackson & STELab. of Nagoya Univ.)
Satellite	GEO environment prediction LEO environment prediction
Airline	polar route communication prediction polar route radiation dose prediction
GIC	local GIC prediction model local GIC map
GPS	local TEC map local GPS ionospheric error map
Communications	local ionospheric model (IRI-2012 + VOACAP + local data) real-time usable HF frequency

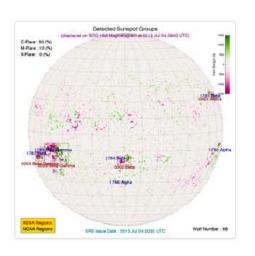

Research Activities – ASSA

Research Activities – ASSA at NASA/CCMC

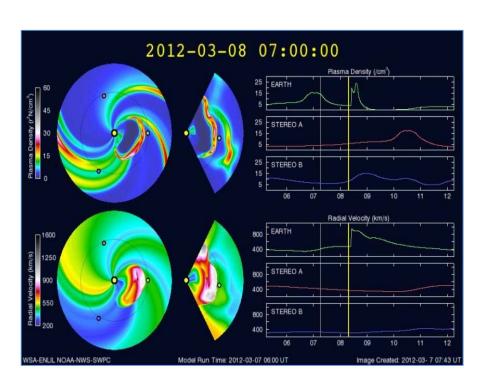

KOREAN SPACE WEATHER CENTER

Research Activities – solar wind prediction

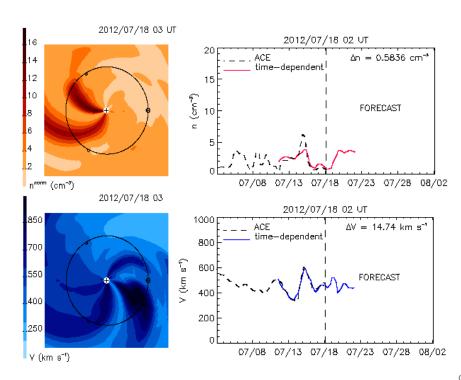

> Currently in Operation

- ✓ WSA-Enlil+CONE
 - : in operation since Dec 2012
- ✓ IPS Tomographic Model
 - : in operation since Mar 2013

> New Development

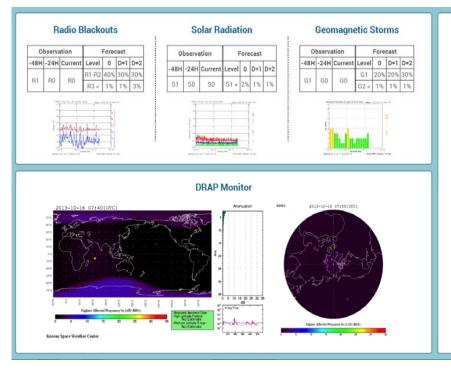

- ✓ KSWC is funding to UCSD & GMU
 perform IPS-Driven Enlil model study
- ✓ It will provide CME arrival prediction without coronagraph data.

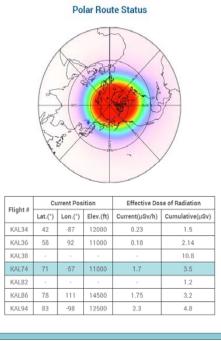

Research Activities – support for aviation group

- ➤ Polar route SWx monitor (Dec 2013~)
 - ✓ A tailor made system live flight
 position tracking (for Korean Air & Asiana Air)
 - ✓ provide HF attenuation (D-RAP+PCA)
 & radiation dose rate (CARI-6)

- > ARMAS-Lite Project (2014~)
 - ✓ Automated Radiation Measurements for Aviation Safety
 - ✓ fly with airplanes of NOAA & NCAR
 - √ comparison with NAIRAS model

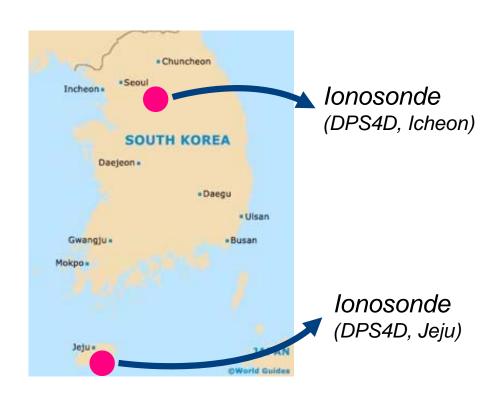

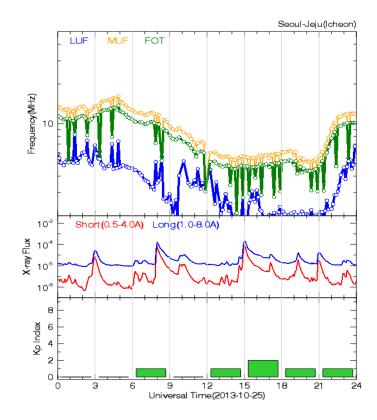

Research Activities – real-time ionosphere model

Local Ionospheric Model

- ✓ IRI-2012 + VOACAP + local data assimilation
- ✓ real-time usable HF frequency for airlines, ships, military, etc.
- ✓ expend the model coverage to East Asia in 2014

SWx Operations - SNS & Mobile App.

> [SNS] The Facebook

- ✓ daily SWx cast video (2-min length), post analysis, tutorials, etc
- √ <u>facebook.com/rwcjeju</u> (Korean)

➤ [Mobile App] RRA Space Weather

- ✓ real-time SWx condition & forecast
- ✓ observation data and model results
- √ iOS & Android version (English)

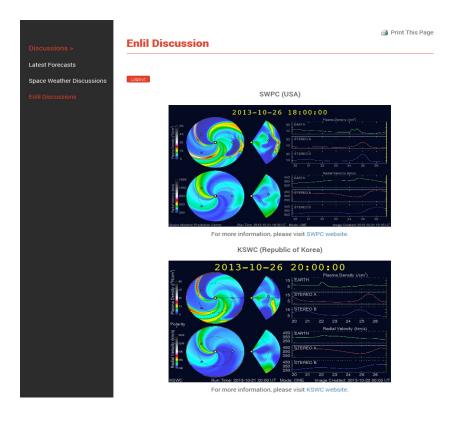

SWx Operations – international forecast coordination

- > ISES's New Website (ises-spaceweather.org)
 - ✓ [New functionalities] 'SWx Now', 'Latest Forecasts'
 - ✓ [Special tools for RWCs] 'SWx Discussion', 'Enlil Discussion'

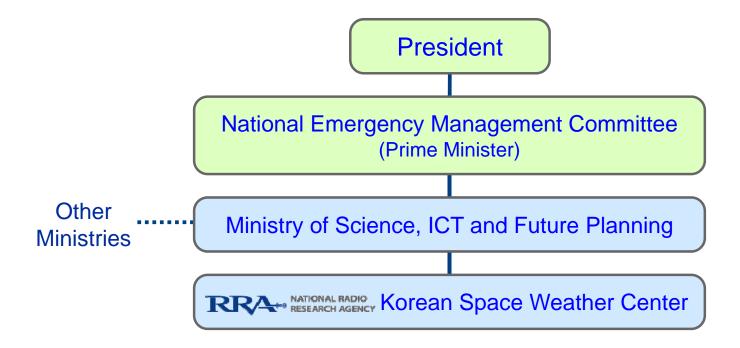

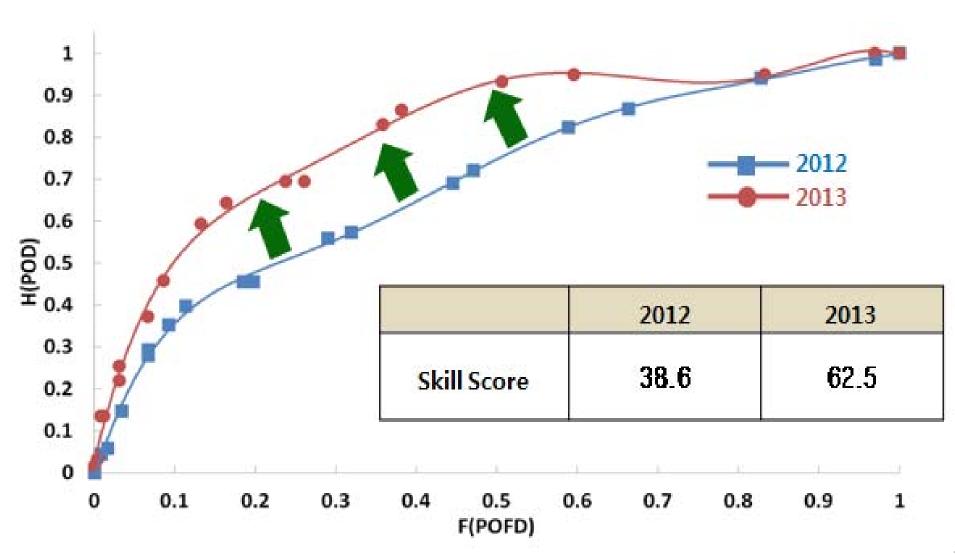

National Preparation

> Space Weather Disaster Management Manual (Feb. 2013)

- ✓ space weather was included in the national risk profile
- √ the government's official manual was approved
 - describes the roles & responsibilities of related ministries and agencies
 - removing confusion & increasing efficiency among different organizations

Forecast Verification

NATIONAL RADIO RESEARCH AGENCY

KOREAN SPACE WEATHER CENTER

5th Int'l Space Weather Conference
